REPORT: Sheldon went over the reason why NNRDA wanted to be approved as an Economic Development District and all the misinformation that we encountered along the way. We began the process in 2019 and finally got approved late 2022. After we were approved, we hired an Executive Director who moved from Oklahoma for the position then a few months later we were made aware that our funding would run out at the end of June 2024. We would have to apply for additional funding and IF we got approved we would not receive the new funding for 9 months. At this point, NNRDA could not justify covering the NNEDD for that amount of time and not even be guaranteed funding moving forward. Sheldon eventually connected with EDA's Regional Director, Chris Cox, who sat down with Sheldon for over 2 hours and explained everything in detail with step by step instructions and information – Sheldon indicated that he wished this would have been explained in the beginning! Although it was wonderful to finally get solid answers it was also very discouraging because everything we had been led to understand up to this point was simply inaccurate. Sheldon indicated that much of this was likely because there was information flowing from and through several different sources including new EDA representatives, the UNR UCED staff and, GOED. Bottom line is Mr. Cox confirmed that all this hired person would do is send emails and create a CEDS. Sheldon told him there's already too many entities sending emails and we already have a CEDS. Sheldon asked him what funding is available to us. Mr. Cox confirmed that we hold the umbrella for the funding but each community would have to apply for grants independently. The only funding the NNEDD would be able to apply for would be for Technical Assistant Grants (studies). Again, this is not what we were led to believe in the beginning. We simply do not feel that we need more studies complete, we want action and tangible results! Sheldon suggests that, at this time, we set the EDD on a shelf then if/when we need it we will access it. Further, that we should pursue a "test" project to see if/how to secure community development funding, analyze that process and the result and go from there. We have missed the EDD funding cycle for this year so this should give us a year to decide if we want to continue as an EDD and if so, what does that look like? If we do decide to keep up with the reporting as well as get a little money back from the EDA, then we will need to hire a part time person to keep up with work. It does take a lot of time to keep up with all the reporting. Sheldon feels like we can meet twice a year to see how it's going.

NO ACTION TAKEN.

- 2) Presentation, review, and approval of 2024 Regional Comprehensive Economic Development Strategy (CEDS).

FOR POSSIBLE ACTION

DISCUSSION: Sheldon explained that one of the requirements for becoming an EDD was creating a CEDS. NNRDA had already completed a CEDS for each of our communities utilizing Fred Steinmann with UNR to turn the information we collected from each community into a Technical Report. The EDA wanted the report dialed down and also told Sheldon it was missing a few elements required by the EDA. Sheldon worked through the holiday redoing this whole document. He sent it in to the EDA and they came back and asked him to add more detail in the "Resilience" section. He resent the document and the EDA indicated it
